

WARM-WATER REBIRTHING

Sunday, April 06, 2014

CARITAS HEALING ARTS

Rebirthing is a method of using your breath to facilitate transformation within your mind, body, and spirit. Used consciously, the breath can become a powerful vehicle for freeing the mind and body of the fear and perceptions that hold us back in life.

The breath helps create this change through stimulating the part of God energy that is in you, called kundalini, to rise up and openly flow through your entire body. This helps us to directly experience the Spirit/God within and beyond us, and fortifies our self-empowerment in all of life.

It is the thrill of thrills and the serenity of peace at the same time. In this breathing process, one can permanently release negative thoughts and memories that make tensions in the body, symptoms of pain and disease, fears of failure, fears of success, fears of love, fears of death and the beliefs and programming of aging.

It is the ultimate Spiritual Bath!
